Product Manager

Description

Are you a seasoned Product Manager with experience in emerging FinTech technologies and user experience in digital and Point of Sale applications? How about working for a global FinTech company on a dynamic and agile team that is building the next generation Account Pay-out Network to bank accounts, wallets, and cards to more than 200 countries and territories globally? Join Western Union.

Responsibilities

- Playing a crucial role in understanding client needs and external partner capabilities to deliver the best in class service solution.
- Working with external global partners and cross-functional teams mostly from India, the US, Costa Rica, and Lithuania.
- Combining your sound technical understanding and your business acumen, you will be a powerful driver in advancing Western Union's range of innovative products.

Qualifications

- Strong track record of managing projects in an Agile and multicultural environment.
- Cross-border remittance, banking or FinTech sector experience.
- Strong communication, analytical and problem-solving skills.
- Ideally hold a degree in Business, Computer Science, Engineering or Finance.
- Understanding of Compliance, Privacy, Legal and Settlement considerations would be a significant advantage.

Hiring organization
